

**The natural freshwater oxygen process
100% chlorine free**

**Mineral Water Swimming Pools
Whole Household Mineral Drinking Water**

e:clear
on oxygen

Pure | Fresh | Natural | Chemical Free

How it works

The Fully Automated Patented e-clear Disinfection Technology provides Three Levels of Sanitation:

1. Within the Sealed Oxygen Chamber, metallic coated anodes electronically produce 4 powerful disinfecting oxidizers from the water (H₂O) molecule itself: -
 - OH (hydroxyl) • O1 (atomic Oxygen) • H₂O₂ (hydrogen peroxide) • O₂ (molecular Oxygen)
2. Only O₂ is stable and provides a healthy disinfecting residual in the water – hence “Oxygen” pools.
3. Copper ionization, an effective natural algaecide and bactericide, provides an additional stable and healthy sanitizing residual in the water.

Delivers More Toxic Free Oxidation in 1 Minute than any Other Known Salt, Ozone, UV system or Chlorine can Generate in 1 Hour.

E-clear 'Oxygen' Pool Sanitation System

100% Chlorine Free - Salt Free - Ozone Free

crystal clear, oxygen rich, healthy mineral water

- complies with International health directives
- no more red burning eyes, dried out hair, skin, allergies or asthma

non-toxic

- no carcinogenic disinfection byproducts (DBPs) / trihalomethanes (THMs)
- no harmful chloramine gas
- chemical free

eco friendly

- no polluting organochlorines or greenhouse gasses
- no salinification of natural water ways
- water wise – back wash to your garden

easy to maintain

- hassle free – oxidation & ionization automated
- no chlorine or salt required
- self-cleaning anodes

cost saving

- save on chlorine & other chemicals
- save on water
- non-corrosive – extends pool life & equipment

“Kiss Chlorine Goodbye”

Pure | Fresh | Natural | Chemical Free

E-clear ECO Fusion Whole Home System

- **Point-of-Entry – Connected to Main Water Supply**
- **The Most Advanced Water Sanitation System Available**
- **High Flow rates from 1,800L to over 18,000L/hour**
- **Delivering Great Tasting, Pure, Healthy, Chemical Free Mineral Water to Every Tap in the Home**
- **Fully Automated Electronic Management System**
- **Integrated Flow Sensor - ON/OFF management system**
- **7-Stage Filtration, Purification and Sanitation**

TECHNICAL SPECIFICATIONS

1. **Mineral Enrichment Ion Exchange Filter** – Removes Ammonia & Nitrates from source water
2. **5-micron Pre-filtration** – removes sediment dirt
3. **1st Phase GAC Ion exchange filter** – removes chlorine, pesticides, insecticides, etc.
4. **Long life Germicidal UV Lamps** – Extended Chamber for longer contact time with water. Removes 99.99% all waterborne parasites and diseases including cryptosporidium.
5. **e-clear Oxygen Technology** – produces 4 powerful oxidizers/disinfectants. Healthy Oxygen-Rich Water.
6. **Ionization Electrodes** – Eliminates *E.coli*, *Coliforms*, *Streptococcus*, *Legionella*, etc.
7. **Final Phase GAC Filter** –Final removal of chlorine, lead, mercury, and other pollutants.

Pure | Fresh | Natural | Chemical Free

E-clear 'Oxygen' Water Sanitation Systems

Manufactured in South Africa

100% Chlorine Free, Salt Free, Ozone Free

Applications:

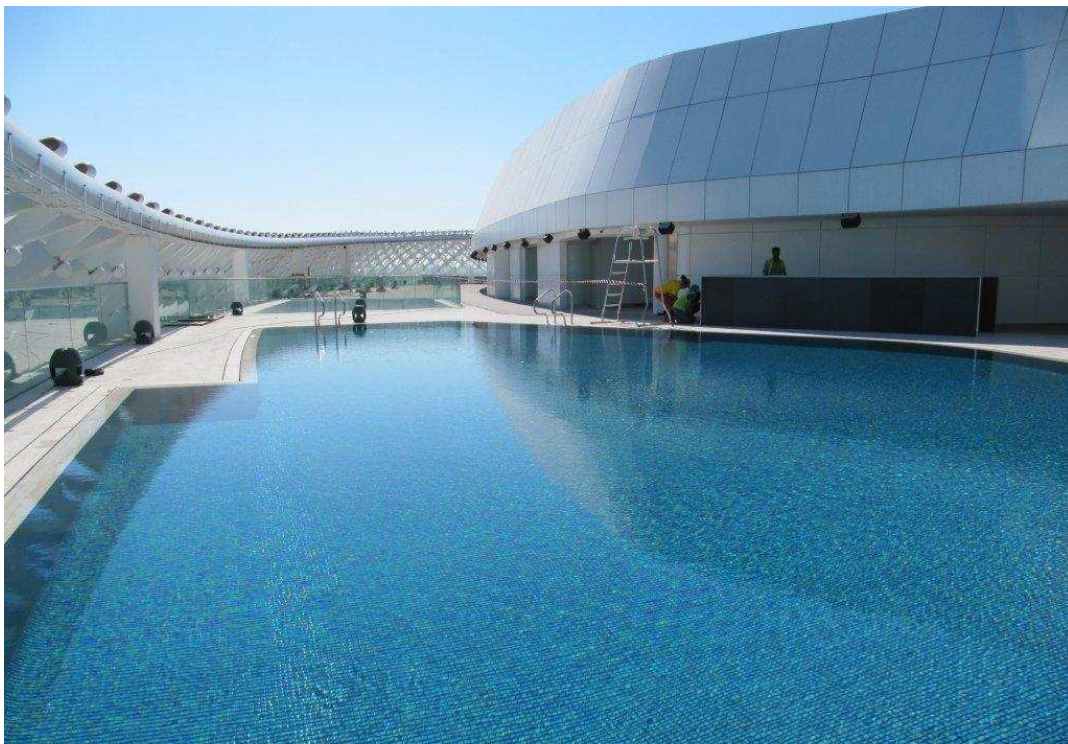

POOL SYSTEM: domestic & commercial swimming pools - water features – spas - koi ponds - equestrian pools

DRINKING WATER SYSTEM: Whole households – Commercial – Restaurants - Guest Houses – Hotels - Food processing plants - Hospitals
